LOCAL NEWS.

A FREE BRIDGE -- A second meeting of the oitizeus of Alexandria county was held at Walker School House on Wednesday evening last, Squire Whalon in the chair and Jas. E. Clements secretary.

The chair stated that the meeting had assembled for the purpose of adopting some plan by which they might succeed in their end avours to get a free bridge across the Poto mac, between Georgetown and Alexandria county.

Mr. Douglas made a motion "that a commit tee of three be named to wait upon a number of gentlemen who were a short time ago on gaged in a like undertaking to a cortain if they were still of the same mind, and would lend their aid in the present enterprize.' Agreed to, and Messrs. Douglas, Nesmith

and Gross appointed as the committee. Mr. Cunningham here presented a set of

resolutions, which were amended and adopted as follows:

Whereas the corporation owning and controling the aqueduct bridge has for a number of years oppressed the travelling public by an excessive and exorbitant "toll tax," to the great injury and detriment of the material interests of this and adjoining counties, thereby repelling and preventing purchasers from investing in our marketable lands, and in a measure ostracising us from the benefit and immunities of a free and uninterrupted intercourse with the markets and people of the District of Columbia. A: d whereas the said corporation has heretofore succeeded in thwarting and impeding the peo-ple of Alexandria and acjoining counties in their efforts before Congress for redress and relief. And whereas, in the opinion of many, the aforesaid bridge is at present, and has been for some time, unsafe, and actually dangerous to

the travelling public; therefore, be it Resolved, That we, the people of Alexandria county, in mass meeting assembled, unite for the purpose of using all honorable endeavors to free ourselves from the onerous exactions of this monopoly; and, therefore, respectfully call upon our Delegates and Senators in the Legislative assembly and our Representatives and Senators in the Congress of the United States for th ir aid and support in this most just and laudable endeavor.

Mr. Gross suggested that a committee be appointed whose duty should be to visit the polls of each voting precinct in the county on the day of the coming election provided with tickets containing the words, "For or against a free bridge," so that the people of the county might have a chance of giving their full expression on the subject.

The motion was adopted and Squire Whalon assigned to attend to that dury. The chair stated that it was the upanimous

wish of the meeting that the press of Alexandria city take issue with them, thereby aiding them in this most plausible undertaking. The meeting then adjourned until Wednes day, October 20th, at 7 o'clock p. m.

Personal -- In its account of a tournament lately held at Farmville, the Mercury of that I would invite the public to call and inspect town says: "The dancing almost without exception was admirable, but La Premiere Dan-seuse was undoubtedly Miss Lucy Brent, of Alexandria, who, just arrived from the myigorations of Buffalo Springs and Lithia Water, fantastic toe" like the brook of poetry, ought to ington.

THE MINERAL BUREAU. - The Mineral Bureau has received to-day two boxes of iron ore, representing deposits found upon the farms of Henry Simpers and George M. Slater, in upper Fauquier, near Paris. All are magnetic ores from what has been named "Loadstone Ridge," extending through both properties for a distance of over 3 of a mile north and south. Mr. Simpers' specimens are from the surface, having been broken from large protru ling masses. Mr. Slater's are from a shaft 22 feet deep, sunk at the northern end of the ridge, showing a vein having north and south direction and dipping vertically, increasing rapidly in thickness from one inch at 2 feet below the surface, to 5 feet 6 inches at a depth of 22 feet. An ourerop has also been discovered at the southern end of the same ridge. Of these ores no certificate of chemical analysis has been sent to the Bureau, but they are doubtless rich in iron and the deposits are apparently extensive Buth farms are located within five miles or Deteplane Station, on the Virginia Midland Railroad.

Mr. Morris paraphrases most of the important recommendations and -uggestions contained in the report of Sir Ed ward Watkin, and adds some information about the difficulties which would attend a foreclosure, and about the amount of fixed charges which exceed the net earnings by \$1,000,000, and the necessity of subordinating the bondholders' claims to such charges and the floating
